

The Detox System and How it Works

Comprehensive Homeopathy utilizes six primary sources of ingredients to supercharge the affect.

These products work with the brain to target organs and the matrix to enhance and sustain treatment

Cerebromax and spinalmax are used before and during your weight loss process to enhance each phase of your protocol. They prepare the brain and its communication systems to receive each treatment.

The Detox and Matrix remedies help to clear and regulate the interstitial matrix to accelerate the process.

Cerebromax is used to balance the brain's key information drivers. Spinalmax is designed to focus on all functions and physiology that is the responsibility of the spine to perform, especially the movement and flow of information.

Basically, cerebormax and spinalmax prepare the brain and its communication systems to receive the treatment.

The Detox and Matrix remedies help to clear and regulate elimination systems and the interstitial matrix to accelerate the process. Detox I is primarily for liver support and drainage, Detox II for the kidney, Detox III for the lymphatic system and Matrix Support is for clearing of the mucous membranes throughout the body and supporting the interstitial matrix.

What the Comprehensive Homeopathic Detox System does for you.

- ◆ Ensures the brain is ready to receive, process and communicate information.
- ◆ Prepares the spine and nerves to properly process signals
- ◆ Enhances and sustains the healing process after physical procedures are complete
- ◆ Prepares the organ systems to receive signals and unblock stuck meridian systems
- ◆ Opens and balances drainage pathways required for the immune system to release its sensitivity to specific allergens
- ◆ Supports overall health and resilience
